

AfterLife

Relive Memories All The Time

Introduction

- Losing a loved one leaves a void that is hard to fill.
- Many people want to go back to memories, hear voices, or see the faces of those who have gone.
- AFTER LIFE provides a way to keep memories alive with innovative technology.

AfterLife

- An app / game designed to recreate interactive memories with a deceased loved one.
- Users can upload photos and voice recordings to generate a 3D model that resembles the person.

Features include:

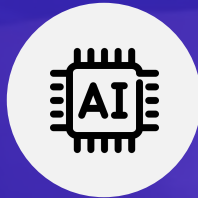

- Interaction via text or voice.
- A voice response that resembles the voice of the deceased.

Platform

there are two platforms for this application. vr and mobile, although functionally the same, but the experience is different, if mobile prioritizes craftsmanship. but if the vr version brings more real experience

Technology Innovation

AI

Photo analysis
and 3D rendering

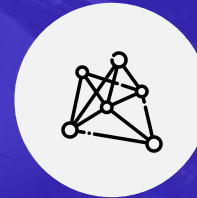

AI

Synthesize sounds to
mimic tonal patterns

Cloud

Securely stores photos,
voice samples, and
generated data

Special Algorithm

Ensure realistic
interactions and
emotional nuances.

Mobile Version features

Video Call

Intuitive interaction in the form of video calls. we can chat casually, and the smart NPC AI will answer Well

Daily Reminder

Example: "don't forget to eat."or" drink enough water today."

Messages of encouragement

Personal messages such as: "Yes! You can definitely get through this day."or "don't forget, you mean a lot."

VR Version features

Immersive experience

players can see from various sides of the existing character

virtual space

The user gets into the virtual space along with the 3D model. Example Family dining room.
Family dining room: a warm gathering place, allowing interactions such as casual conversation at the dining table.

Who can use it?

- People who want to remember their loved ones.
- Families who want to keep the legacy for future generations.
- Emotional and mental support to cope with grief.

Respect and responsibility

- **Privacy:** ensures all user data is encrypted and secure.
- **Consent:** ensuring the use of data complies with ethical standards.
- **Emotional sensitivity:** designed to support, not exploit a sense of loss.

The Sign In Menu screen features a white background with a centered header area. The header contains the text "Hello" in a large, bold font, followed by "Welcome to After Life" in a smaller font. Below the header are two rounded rectangular input fields: "Enter username" and "Password". The "Password" field includes a small eye icon for toggling visibility. Below the input fields is a link that says "Recover Password". A large, rounded blue button with the text "Sign In" is positioned below the links. At the bottom, there is a section titled "Or continue with" with icons for Google and Facebook. A link "Not a member? Register Now" is located at the very bottom.
